## Round up of Radical Agitators in West Virginia Coal Field Commenced by Department of Justice Officials

## DEMANDS OF RAILROAD MEN CONSIDERED

(By Associated Press)  
Washington, Nov. 14.—Conferences for discussion of the demands of the four railroad brotherhoods for revision of working conditions which have been in progress between the brotherhood chiefs and Director General Hines all week appeared today to be nearing an end. Railroad Administration officials believed the arguments would have been completed within 24 hours. There was no indication whether Mr. Hines would give an immediate answer or reserve his decision. The principal question remaining in dispute is the demand of the brotherhood for time and a half for overtime for trainmen in road service.

## START ON NO STOP FLIGHT TO CHICAGO

(By Associated Press)  
Minneapolis, N. Y., Nov. 14.—In the face of a 20-mile wind from the north the giant Handley Page bombing plane commanded by Vice Admiral Kerr, started from here at 7 o'clock this morning on an attempted non-stop flight to Chicago. The plane carried 8 passengers and 1500 lbs. of women's clothing and furs for the American Ry. Express Co. Admiral Kerr expected the trip to take about 10 hours.

(By Associated Press)  
Charleston, West Va., Nov. 14.—A round-up of radical agitators in northern West Virginia coal fields was begun today when Dept. of Justice agents assisted by state authorities invaded the district in which, according to state officials, Industrial Workers of the World, Russian and Australian agitators have been spreading lawless propaganda. As a result of activity of radicals, authorities say many coal miners have failed to return to work. While united mine workers officials have announced they were "able to control the situation" state executives and coal operators said they feared there would be trouble unless the propaganda was curbed at once.

## STEAMSHIP CREW PICKED UP BY MINE SWEEPER

(By Associated Press)  
The Hague, Nov. 14.—Two boats containing 38 members of the crew of the American steamer Council Bluffs have been picked up near Terschoelling according to a recent despatch received here.

Boston, Nov. 14.—Details of the loss of the American steamer Council Bluffs in the North Sea were eagerly awaited today at the office of the Warren Transportation Co. of this city which operated the vessel. The news despatch saying 38 of the crew had been picked up was the only information the company had received. In the absence of any word as to the cause of the loss of the vessel company officials suggested the possibility that she had been blown up by a mine. They said the 38 men constituted the entire crew.

## WHISKEY IS SOLD OPENLY IN LOUISVILLE

(By Associated Press)  
Louisville, Ky., Nov. 14.—Two local distillers sold whiskey openly today at \$75 a case regardless of the war time prohibition law. Hundreds of orders filed before July 1st, when the war time law went into effect, it was said, were being filled by these distillers which resumed sales following the granting of an injunction to them by Federal Judge Adams, restraining the government from interfering with the sale of nearly a million gallons of floor stock whiskey. They made their sales, however, with the knowledge that they are liable to prosecution according to District Attorney Gregory if the Federal Supreme court reverses Judge Evans' in a decision it is expected to make November 20.

## LET'S GO AFTER IT!

Boston is making a drive for some of our submarine work. The New Hampshire delegation has made a united request for additional work for the yard force. There is no time to be lost. There is work now, but we must not let Boston capture our specialty, which is submarine construction. A united movement on the part of all our local bodies is desirable. Go to it.

Helsingfors, Nov. 14.—The Baltic States Conference at Dorpat has been advised that Finland has decided to aid Gen. ### FIRELESS COOKERS POPULAR IN LONDON

London, Nov. 13.—"Haybox" cooking, the English adaptation of American "fireless cookery" promises to become increasingly popular among English housewives during the coming winter.

Winter because of the urgent need for fuel economy. The term is derived from the fact that hay, one of the most suitable non-conductors of heat, is almost exclusively used as the "packing" for the "Made in England" type of fireless cooker, in both the commercially manufactured and the home-made product.

## GRANITE STATE TO OPPOSE RADICALS

Manchester, N. H., Nov. 14.—Many of the most prominent political, labor, industrial and educational leaders of the state met yesterday to formulate a definite policy for this state relative to political and industrial unrest in America.

An open meeting was called at the instance of citizens of the state and was held under the auspices of the Society of United Americans, a National body organized to fight the propaganda of radicals, extreme reactionaries and the "Reds."

The gathering included two ex-Governors of the state, Pres. Ernest Martin Hopkins of Dartmouth College, Pres. Arthur P. Morrill of the State Senate, Speaker Charles T. Tobey of the New Hampshire House of Representatives and John H. Jackson, chairman of the Committee on Public Safety.

Pres. Hopkins, in opening the meeting outlined briefly the present condition of affairs in America and stated in emphatic fashion that it is necessary to do something to combat destructive tendencies operating in the United States.

"We are up against a condition not a theory in this country today. The fighting has ceased, but the war is not yet over. A dangerous condition confronts the Nation and we must face it," he said. "In reflecting over the end of the coal strike and the result of the election in Massachusetts I am not at all sure but that we shall swing as far back toward the other extreme unless we are careful."

Declaring that a great majority of the 6,000,000 working men who have been on strike during the last few months cannot be classed as I. W. W. or Bolsheviki, Ex-Gov. Robert F. Hall said he believed that the American Federation of Labor was trying to combat the radical element among the working classes as much as any group of people who were teaching Americans. He said that the union laboring class did not want to be preached to regarding their loyalty as they were as loyal as any other people in the country.

Besides Pres. Hopkins and Ex-Gov. Hall other speakers were Hunter Spaulding and Pres. John L. Barry of the New Hampshire Federation of Labor. The outcome of the conference was the appointment of a committee of seven to investigate the motives of the National body of United Americans and to determine whether or not it is advisable to form a state branch. The committee is made up of Ex-Gov. Hall of Peterboro, Alderman Harry of Manchester, Huntley N. Spaulding of Rochester, John H. Jackson of Concord, D. Sidney Hollings of Newport, Arthur M. Alford of Manchester, and Mrs. James W. Runkle of Concord and Pres. Hopkins.

Isabel of Manchester pleaded guilty to the charge of selling liquor, contrary to the war time prohibition act and was held under \$200 bail, while Benjamin Blake of the Elm House, Portsmouth, pleaded not guilty to the charge of selling liquor to two men in uniforms and was held under \$100 bail. It was charged by the investigators that two naval prisoners who made a trip to Portsmouth dressed in warlike uniforms purchased liquor at the Elm House—Concord Monitor.

## MUST DEPEND ON THEMSELVES

Archangel, Nov. 14.—Apparently the dominating influence of the allies was one of the reasons for the low efficiency heretofore displayed by the Northern Russians in fighting the Bolsheviks. They depended too much on the allies guidance and assistance.

Upon the departure of the British all civil and military affairs were taken over exclusively by Russians. The first fortnight that they have been thrown on their own resources has demonstrated that in this region they can not only hold the front but can develop initiative and move forward where necessary.

The conviction is growing that with the arrival of Serbian and Czechoslovak troops they will not only be able to defend the northern district but will be able to give material assistance on other Russian fronts.

## Everyone Should Drink Hot Water in the Morning

Wash away all stomach, liver, and bowel poisons before breakfast.

To feel your best day in and day out, to feel clean inside, to sour bile, to coat your tongue and clean your teeth, or dull your head, no constipation, bilious attacks, sick headache, colds, rheumatism or gas, acid stomach, you must bathe on the inside like you bathe outside. This is vastly more important, because the skin pores do not absorb impurities into the blood, while the bowel purges do.

To keep these poisons and toxins well flushed from the stomach, liver, kidneys and bowels drink before breakfast each day, a glass of hot water with a teaspoonful of limestone phosphate in it. This will cleanse, purify, and freshen the entire alimentary tract before eating, more food.

Get a quarter pound of limestone phosphate from your pharmacist. It is inexpensive and almost tasteless. Drink phosphated hot water every morning to rid your system of these vile poisons and toxins; also to prevent their formation.

## WAR TIME PROHIBITION STILL IN EFFECT

(By Associated Press)

Washington, Nov. 13—Attorney General Palmer's position on the war-time prohibition has in no way been altered by the decisions of the Federal Courts in Rhode Island and Kentucky. It was officially stated at his office today. The government's contention that the wartime act is in full force will be maintained until the Supreme Court hands down a decision on the matter.

Boston, Nov. 13—The first step in an attempt to prevent the enforcement of the war-time prohibition in this state was taken today when the New England Brewing company filed in the Federal Court a bill in equity asking for an injunction to restrain District Attorney Thomas B. Boynton and Acting Collector Andrew J. Casey from enforcement of the act.

Judge George W. Anderson has set Nov. 17 for a hearing. The bill sets forth that the law is unconstitutional in that it seeks to enforce the national prohibition from the time war is over to the date of the Constitutional Prohibition.

Providence, R. I., Nov. 13—A decree making operative the injunction against war-time prohibition handed down by Federal Judge Arthur L. Brown was entered in the United States District Court and it enjoins the federal officers from enforcing or interfering with the Narragansett Brewing company. Immediately after the decree was filed Harvey A. Baker the District Attorney notified the court he would make an appeal to the United States Circuit court of appeal and asked for a stay of the injunction pending their decision. Judge Brown denied the petition and granted until next Monday in which to file the appeal.

## HEADWAY IN RAILROAD REORGANIZATION

(By Associated Press)

Washington, Nov. 13—Four important points on the railroad reorganization were agreed to in the House today during the discussion on the Esch bill. Each of the points have far reaching effect to both capital and the carriers both for the period of the government control and afterward. The articles with one exception were carried without much opposition. It provides for the government guarantee of the income rate as under the government

control for a period of six months after turned over to the private owners. The points are, that the carriers indebtedness to the government after the payment of the rental may be refunded for ten years at a rate of six per cent. Carriers may obtain loans from the government from the \$250,000,000 revolving fund for a period of two years, the loans to mature in five years and bear interest at six per cent and be secured. Carriers must apply within six months to the Interstate Commission for an increase in rates.

## WILL RETURN BODIES FROM FRANCE

(By Associated Press)

Washington, Nov. 13—The War Department have received 30,000 requests for the return of the bodies of the soldiers dead in France. Col. B. W. ## SENATE ADOPTS RESERVATION TO ARTICLE TEN

(By Associated Press)

Washington, Nov. 13—The reservation to article ten of the League of Nations in the Peace Treaty drafted by the Foreign Relations committee, was adopted by the senate late this afternoon by a vote of 46 to 33 after all attempts to amend it has been defeated.

A petition for the enforcement of the clause was filed by Majority Leader Lodge and under the rules a vote will be taken on Saturday morning.

The vote on the committee reservation came after the Senate had rejected by a vote of 15 to 31 substituted by Senator Hitchcock which embodied a portion of the suggestion of Senator Sagar in an old speech, declaring that it would be the general policy of the United States to interfere when the civilization of the world was threatened. The reservation of the committee adopted was in practically the exact language which President Wilson said in one of his western speeches would cut the heart out of the treaty and cause it to be rejected.

Washington, Nov. 13—Cloture on the German peace treaty was defeated in the Senate today by a vote of 44 to 36, the vote being cast largely on party lines, with such modifications as may be suggested by the vote of Shields of Tennessee and Reed of Missouri with the Republicans.

The amendment of Walsh of Montana was defeated, 68 to 4; La Follette, Norris, Pittman and Walsh of Montana alone supporting it.

The amendment proposed by Senator Walsh was to be added to the committee reservation, and provided that, as the United States was not bound to go to the assistance of other League members in preserving their territorial integrity, they would not be expected by this country to aid the United States should it be assailed. This was in line with a long speech made by Senator Walsh Monday in which he said it was unfair for this country to expect to be aided by the League, when it did not propose to send troops anywhere to aid any other League member. Then he added a sentence to his amendment providing that the United States would not participate in the League council or assembly.

Today was the first time in the history of the Senate that a cloture rule had been invoked and had the question, which was proposed by the Administration leader, been purely on the basis of closing debate on the treaty as a whole, including all reservations and future substitutes it doubtless would have carried. But Senator Hitchcock in pursuance of a plan considered in the Democratic caucus this morning, brought in a motion for a cloture, a such a nature that after the Lodge reservation had been acted upon the Senate would be free to consider other propositions, thus making a compromise, and the Senate sustained a ruling of President Pro Tem Cummins that the Hitchcock motion, applying to part of the "pending measure" and not the whole treaty, was out of order. The technical situation was this: That Hitchcock appealed from the ruling of the chair, Senator Lodge moved to lay motion on the table, and by the vote just quoted the Lodge motion prevailed.

## NEW PACKING REGULATIONS FOR EXPRESS

Steps were taken today by Agent C. E. Abbott, in charge of the city express office, to prepare for the new express packing requirements which go into effect on December 10th. He has been advising express shippers to study the new rules, which have been approved by the United States Railroad Administration, so that they may be able to adjust their packing methods to the forthcoming new standards.

Under the new regulations, which are embodied in what is known technically as Supplement No. 5 to Express Classification No. 26, all shipments sent by express weighing over 25 lbs. must be packed in wooden containers, or cartons of fibre-board, pulpboard, or corrugated, strawboard material, of specified "test strengths." This means, according to Agent Abbott, that after Dec. 10th, packages over the 25-lb. limit will not be accepted for forwarding by the American Railway Express Company, handling the express business of the entire country as Agent of the Railroad Administration, if only paper-wrapped. Nor will ordinary paper boxes, wrapped or unwrapped, be accepted as suitable protection for heavy, heavier shipments. The regulation, however, do not affect shipments under 25 pounds.

Regular shippers, Agent Abbott stated today, will not be mystified by the new regulations, as they follow very closely the packing requirements long in vogue in the freight service. The express regulations, however, allow a little more latitude in the size of the cartons used. The enforcement of the new rules was postponed until December 10th, so that shippers would have plenty of time to prepare themselves for this change in express packing standards.

Agent Abbott expressed the opinion that these new rules will not work any hardship on shippers, but should oper-

ate distinctly in their interest, as the rules will provide additional safeguards for merchandise in transit. Moreover, they will establish a uniformity of express packing rules which heretofore has been lacking. The new order does not affect the movement of food products by express, which are ordinarily shipped in crates or barrels.

## BACON TO BE TREASURER OF THE LEGION

(By Associated Press)

Minneapolis, Nov. 13—Joseph G. Bacon of Massachusetts was chosen treasurer and Leonard L. Bowles of North Yankton, Wash., was named National Adjutant of the American Legion at a meeting of the Executive committee here today. The Star Spangled Banner was chosen as the Legion song and the committee adjourned to the call of the National Commander.

Indianapolis, Nov. 13—The Indianapolis Chamber of Commerce today voted the sum of \$10,000 to build a permanent home for the American Legion, who at their annual convention voted to make this city the national headquarters.

## SALTS FINE FOR ACHING KIDNEYS

We eat too much meat which clogs kidneys, then the Back hurts.

Most folks forget that the kidneys like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clear, and the moment you feel an ache or pain in the kidney region, get about four ounces of Joe Salts from any good drug store here take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Joe Salts is harmless, inexpensive, makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Joe Salts to folks who believe in overcoming kidney trouble while it is only trouble.

## Country Needs to Cool Down.

All observant and thinking people are impressed, and very seriously impressed, by the tremendous unrest that afflicts the country. While in one sense there was never greater prosperity, the fact remains that dissatisfaction and discontent were never more widespread. Working people, drawing wages never before dreamed of in the history of this or any other country, are chafing under the conditions that prevail and constantly clamoring for more. While on every hand there are signs of unparalleled prosperity the voice of complaint grows louder and louder and nothing resembling contentment is to be found in any quarter.

Labor feels that capital is getting more than its fair share of the fruits of industry, and is itself charged with grasping far beyond the bounds of reason. Strike follows strike in alarmingly rapid succession, and while the country is not at war, it lacks a great deal of being at peace.

Conditions are such that men and women who are ordinarily rated as sane and level-headed are being swept from their moorings. Not all of the disturbances and turbulence can be rightfully attributed to "ignorant foreigners," numerous as these are and dangerous as some of them are. This was made very plain in an address delivered in Boston on Armistice Day by Rev. Dr. W. H. van Allen of that city, who among other things said: "Those who thought there was nothing else to do except to vanquish the German armies were wrong. There is throughout the world today a conspiracy of anarchy. Only this week fresh revelations have been made in this city of its hideous plans. Intelligent men and women are misguided and lured by its poison. When one hears university men and self-sacrificing women who are not afraid to say that they welcome such an uprising as has been plotted for America, how much need there is of sanity, of rebuke, reproof and exhortation."

And yet it must not be imagined that any important proportion of the American people, even including those who have come from foreign lands, are ready to welcome uprisings against the government, for they are not. But those that are represent a very dangerous class and their machinations must be guarded against with all the power at the command of the government. These agitators play upon the passions and prejudices of all who come under their influence and are creating conditions that must be squarely faced by all lovers of law and order.

Happily, there is evidence that the people are rising to the occasion. The Massachusetts election constituted a declaration that is not to be misunderstood, and the firmness with which the government met the situation in the coal fields is highly reassuring.

What is needed is a general cooling off process. The people are still suffering from war "nerves." They must learn that there are some things besides dollars in this world that are worth living for and that the happiest lives are led by those who are willing to "live and let live."

Four persons, three of them ex-soldiers, were killed by "snipers" during an Armistice Day parade in the state of Washington. Now will the government handle the cases of the criminals who did this work as it did that of the man who killed more than a dozen persons in Los Angeles by exploding a bomb during a parade in that city a few years ago?

The Massachusetts Friends of Irish Freedom have congratulated Senator Walsh of that state and President Wilson on the outcome of the recent stirring election there. This is interesting in view of the fact that the Senator did what he could to have the election go the other way.

Massachusetts is consolidating more than 100 departments, boards and commissions, and for the 67 good berths there will be under the new arrangement there are about 400 candidates. Nothing is said about the inadequacy of the salaries now; but wait until the jobs are landed!

A proclamation has been issued in Dublin forbidding the ownership of an automobile or motor cycle without special permission. And yet Ireland is supposed to be fighting for freedom.

With all its other activities Portsmouth doesn't neglect to slide another new ship or submarine into the water every now and then.

Holland shows a disposition to afford permanent "asylum" to the Ex-Kaiser and Crown Prince, and perhaps it would be as well to let her do it.

If all the deer shot in Maine had been kept there the price of meat might have taken a tumble. But a great deal of Maine's venison, like her potatoes, is shipped to other states.

## PRINCE OF WALES VISITS ANNAPOLIS

(By Associated Press)  
Washington, Nov. 14.—Before going to Annapolis today to inspect the naval academy, the Prince of Wales, purchased 100 Red Cross Christmas seals from Adrien Mayer, the five-year-old health crusader who recently was decorated by General Pershing for making a perfect score in the children's health crusade against disease. The Prince made the trip to Annapolis by train. Before leaving he called on Mrs. Marshall, wife of the vice president. After inspecting the Academy and reviewing the cadets the Prince will return here and will leave tonight for a southern resort for a stay of several days.

## COMMISSION WILL NOT INTERFERE

(By Associated Press)  
Providence, R. I., Nov. 14.—The Police Commission today decided to act under the decision of Federal Judge Brown and allow the saloons to sell malt beverages containing not more than 4 per cent alcohol without interference. This attitude was taken upon the advice of the city solicitor. The commission announced that while the police department would not gather any evidence the dealers would have to assume all responsibility. The dealers all have licenses which permit them to sell non-intoxicating beverages containing not more than 4 per cent of alcohol. Upon the announcement of the commission's decision nearly all the saloons opened again today.

## NAVY YARD NOTES

**Naval Band Made a Hit**  
The naval band from the Portsmouth yard added much to the entertainment given by the American Legion at Dover on Tuesday evening when the Dover Post gave the first public ball. The concert was one of the best ever heard in that city. The Dover Democratic speaking of the music has the following:

"This musical combination is one that is hard to beat as was evidenced by the liberal ovations which they received at the conclusion of each selection. Their playing was snappy, the execution of each artist being faultless and universal commendation was expressed by those fortunate enough to be present to enjoy the high class program."

**More Pay for Officers**  
The following annual increases with similar advances in the pay of officers of corresponding rank in the marine corps, have been recommended by Mr. Daniels:

Admirals, rear admirals, vice admirals and captains, \$1,000; commanders \$800; lieutenant commanders, \$700; lieutenants, senior grade, \$600; lieutenants, junior grade, \$500, and ensigns and warrant officers, \$400.

Monthly pay of chief petty officers would be limited to \$120 and that of other enlisted men \$40 instead of \$32.50.

**Reward for Useful Ideas**  
The navy will pay a cash reward for useful ideas or suggestions submitted by civilian employees or persons in civil life. Regulations to carry out the act of Congress authorizing such payments have been based on the methods adopted by the industrial establishments. The naval inventions office will supply forms on request for the submission of suggestions. The act states that "reward is to be paid when due to a suggestion or a series of suggestions, there results an improvement or economy in manufacturing process, plant or naval material." The department warns employees and civilians against making "frivolous" suggestions.

**May Send Them Here.**  
It is understood that the Navy Department is considering the removal of several store houses erected for war work at the Ford plant, Detroit, and forwarding them to the Portsmouth yard to be set up for storage.

**Expecting a Cut.**  
It is rumored that a reduction of the force of the Supply Department may come along any day.

**Hunting Up Work.**  
The Portsmouth navy yard improvement Association has taken up with the navy department the matter of having some of the new type of submarines constructed at the local yard.

**Cripple Arrives.**  
The coast guard cutter Seneca arrived at the yard on Thursday evening towing the crippled Eagle boat No. 48 from Nova Scotia.

**Another Gunner.**  
Gunner Robert Holt from the torpedo station at Newport, reported at the local yard today for duty on submarine S-5.

**Cut by Falling Iron.**

He believes in Portsmouth every day in the year.

helper, received a severe cut on the head today which was caused by a piece of iron falling from a staging on Submarine No. 9. He was treated at the yard dispensary.

**Bring in Two Stragglers.**  
Two stragglers were delivered on the Southern on Thursday. Stanislas Gravel, a seaman, missing from the navy air station at Rockaway, N. Y., since Oct. 17, was delivered by Police Officer Sylvester of Portland. William J. Conley, another seaman from the Newport Training station, missing since Sept. 1, was picked up at Lewiston, and brought to the local yard by a guard from the receiving ship.

**Coming Back to the Prison.**  
Lieut. A. H. MacCormick, a former executive officer at the naval prison, has been detached from the North Dakota and ordered to report again for duty at the prison. Lieut. MacCormick was released from sea duty just previous to the ship starting for Italy with the body of the Italian minister on account of the illness of his wife, who recently underwent an operation in a New York hospital.

## MADE PLANS FOR CHRISTMAS

The monthly business meeting of the Methodist Sunday school was held last evening at the home of the secretary, Miss Margaret G. Jenness, on State street. The usual routine business was transacted, and plans made for Christmas. At the adjournment of the business a social time was enjoyed. Music added to the interest of the evening and refreshments of ice cream and fancy wafers were served by the hostess.

## SURPRISE PARTY

**Fred W. Bridle Called Upon by Friends**

A surprise party was given Fred W. Bridle Thursday evening at the home of his parents, Mr. and Mrs. Richard Bridle on Richards avenue, and was an unusually pleasant affair of the kind. It was the twenty-second birthday anniversary of the young man and twenty-two of his friends came to assist him in observing the event.

Although unexpected, the guests were given a hearty welcome and games and music made the time pass right merrily. During the evening Y. M. C. A. secretary Leroy C. Schmidt presented the young man with a silk umbrella in behalf of the assembled friends, and the gift was received with much appreciation. At nine-thirty o'clock the young people adjourned into the dining room where refreshments of assorted cake, fancy wafers and ice cream were served. A handsome birthday cake dedicated to the host graced the center of the table and this he distributed among his guests. Among those present were members of the Forward class of boys and also young women of the Methodist parish.

The event was enjoyable to all and upon departure the guests expressed appreciation to the "young man" of their good time and expressed the hope that his future birthday anniversaries may be equally as pleasant.

## FOUR PER CENT BEING SOLD IN PAWTUCKET

(By Associated Press)  
Pawtucket, R. I., Nov. 14.—Many liquor dealers here are openly selling 4 percent beer although the license commissioners say they do so on their own responsibility. In July they were granted licenses for the balance of the year, the fees for which were to be paid monthly. City officials say that no action is likely to be taken against them before the appeal from Judge Brown's decision is entered and a writ of superseasus granted.

## THE WAY TO DO IT

"Are my glasses here," remarked Master Fleischman as he entered the Herald office on Thursday morning. He had lost them on the street and he had placed a small ad in the Herald. He inquired in an air of certainty and the glasses were handed over to him. They had been picked up by Mr. Philbrick of the Portsmouth Electric railway.

A Rye lady lost her pocketbook and Miss Walker found it on Middle street and brought it to the Herald. Charles E. Woods advertised a half dozen articles, from an auto to a cow. "Take that out," he said, "The Herald certainly delivers the goods." Here is a sample of the letter that duly reach the Herald:

"Dear Sirs—Kindly remove adv. 'Munroe piano for sale.' This piano was sold within two hours after your paper came out. I could have sold 100 pianos if I had them this week. Yours, etc., 'W. T. LAWRENCE, 'Dover.'"

Postmaster General Burleson's Report on Telephone, Telegraph and Cables Sent to Congress.

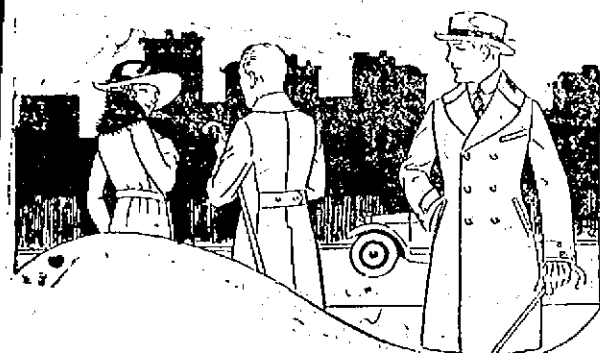

Washington, Nov. 13.—War-time operation of the telephone, telegraph and cable systems of the country cost the Federal Government \$14,418,237, according to a report of Postmaster General Burleson transmitted to Congress today by President Wilson. This sum represented the difference between the net earnings of the companies taken over and the compensation guaranteed by the Government.

The telephone and telegraph wires were under Federal operation from Aug. 1, 1918, and were returned to private owners at midnight July 31, 1919, after just one year in the control of the Postmaster General.

# RAYMOND RIOTERS FOUND GUILTY

## Two Men Convicted of Assault Arising Out of the Shoe Factory Strike in That Town

Two of the strikers in the recent shoe strike at Raymond, which resulted in a riot, were found guilty by a jury in the Superior Court on Thursday afternoon on the charge of an assault upon special officer Philip A. Fox.

The case has taken two days and there were a good number of witnesses from Raymond present. The evidence was that Fox who worked in the shoe factory was among the number of special police sworn in on the morning of the strike. He was not furnished with any badge or uniform, but went home and secured a revolver.

While in a barber shop Lyman came in and accused him of siding with the company against the young fellows by being sworn in as a special police. Ly-

man by the way is a brother-in-law of Fox and after some words Lyman was so threatening that Fox pulled his revolver and pushed it against Lyman's stomach and threatened to shoot if he hit him. In the meantime Belle came in and grabbed Fox from behind planning his arms and they rolled over on the floor in the struggle for the revolver. While struggling with Belle, Lyman hit Fox several times in the face until he dropped the revolver.

The jury were out only twenty minutes when they returned a verdict of guilty and the defendants will be sentenced later. Attorney Mansfield of the firm of Mansfield and Mansfield of Boston Counsel for the Shoe Workers' Union assisted by Attorney Emery appeared for the defendant and County Solicitor Steeper for the State.

## RED CROSS RETURNS STILL COMING

Massachusetts, 404,430; Rhode Island, 67,211; Maine, 42,379; New Hampshire, 29,160; Vermont, 11,560.

The Bath, Me., chapter in the final chapter in the division to go over the top. It reported 2600 enrollments today, or 64 more than its quota.

The Concord chapter has 4700 members toward its quota of 5488. The Concord Junction branch of this chapter has enrolled 27 more than its quota of 640.

The Berkshire county chapter will continue its drive until Nov. 17, to reach its quota of 82,687, which is now about 10,000 short.

Nine branches in the Worcester

chapter have already won honor flags by exceeding their quotas. They are Auburn, Hurdwick, Holden, Hopkinton, Paxton, Princeton, Rutland, Shrewsbury and Uxbridge.

## BAY RUM THE NEW JAG PRODUCER

The latest and said to be the most effective jag producer, now much in vogue by the local thirsty ones, is Bay Rum. This not only produces a real jag, but has the advantage of being a scented jag; one of those one can smell a block away.

The fact that bay rum was such a fine substitute for whiskey and better than Jakey, was discovered only a short time ago and since that time there has been a big run on the bay rum supply of the local druggists. Jakey is now as hard to get as whiskey and the new composition along with a new mixture of wine and hard cider are the favorite drinks along the front.

INCOME TAX  
BLANKS TO BE  
ISSUED SOON

Plans for the issuance early in December of forms for filing income and excess profits tax returns are being made by the Bureau of Internal Revenue. Taxpayers will thus be given the opportunity of making out their returns immediately upon the closing of their books for the year 1919, when accurate knowledge of their accounts is fresh in their minds.

As a convenience to themselves and as a means of expediting the work of the government, taxpayers are urged by the Bureau, in a statement issued today, to avail themselves of this opportunity. The period for filing is from January 1 to March 15, 1920.

If the tax is paid in quarterly installments, one-fourth of the amount must accompany the filing of the return.

Form 1040 A will be used for filing individual income tax returns of \$5,000 and less, and Form 1040 for filing returns of income in excess of that amount.

The normal rate of tax for 1919, provided for in the Revenue Act of 1918, is 4 per cent on the first \$1,000 above the exemptions, and 8 per cent on the remaining net income. The tax for 1918 was 5 and 12 per cent respectively. The surtax rates, which range from 1 per cent on the amount of net income between \$5,000 and \$6,000 to 65 per cent of the amount by which the net income exceeds \$1,000,000, are the same as for the year 1918. The exemptions of \$1,000 for single persons and \$2,000 for unmarried persons and heads of families remain unchanged.

These rates apply to every citizen and resident of the United States. Alien nonresidents receiving income from sources within the United States are subject to the full tax of 8 per cent on such income in excess of the exemptions.

Form 1040 will be used for filing returns of fiduciaries. Form 1045 for partnerships and personal service corporations, and Form 1120 for corporations. Announcement will be made of the date on which the forms will be available at the offices of Collectors of Internal Revenue and branch offices.

**DOVER**

Dover, Nov. 14.—Interest in the coming city election is centering at present around the spirited contest which now seems inevitable for street commissioner.

This year, however, it is understood there will be four candidates. John R. Woster, the present holder of the office, announced Thursday that he will be a candidate for re-election. In addition William W. Willard, a former assistant superintendent of streets under the old regime, has announced that he will seek the office. Maurice N. Lays, who was defeated last year by Mr. Woster, will also announce himself shortly. It was said today. In addition an announcement is expected from David Hermit, at present employed by Street Commissioner Woster.

Mrs. Charles A. Brown, widow of Rev. Henry W. Brown of New Bedford Mass., died at the Wentworth hospital here Thursday morning, aged 65 years. She was brought to the hospital from Farmington, Oct. 26. Mrs. Brown was born in Milton, July 13, 1854, the daughter of Joseph B. and Polly (West) Wakeham, both former residents of this city. The surviving relatives are two cousins. The funeral services will be held in the Ricker Memorial chapel, this afternoon, Burial was in Pine Hill cemetery.

The Meadowbrook Golf Club held a bridge party at the home of Mrs. Susan Woodman, 102 Locust street Wednesday evening.

An exceptionally impressive wedding was solemnized at St. Mary's church Tuesday morning when Miss Lillian Brown became the wife of Dennis Haley, both residents of this city. The ceremony was performed by Rev. John J. Bradley, P. M., in the presence of more than 100 friends and relatives. The couple were attended by Miss Yvonne Baron as bridesmaid and John Haley a brother of the groom, as best man. Following the services at the church, the party retired to their home at 61 Payne street where an elaborate wedding breakfast was served. The couple departed at 10:35 for Boston, where they will spend ten days with relatives. They were the recipients of many useful and handsome gifts.

**EXETER**

Exeter, Nov. 14.—The Knights of Pythias district convention comprising the lodges of Portsmouth, Dover, Somersworth, North Hampton, Plaistow and Exeter, will be held in Exeter on the evening of Nov. 21. It is expected that the Olive Branch lodge of Dover will work the rank of Knight in long form. Grand Chancellor Smith of Manchester will be among the grand officers present.

### INFORM FRIENDS OF MARRIAGE BY PHONE

Charles Lamprey Frink of this city and Lucille Canby of Kittery were married on Wednesday evening at six o'clock at the Christian parson-

age on Islington street. The couple stole a march on their friends and completely surprised them, keeping the matter a secret until after the ceremony when they informed them on the telephone. The groom was best man at the wedding of his brother, Slimes Frink of this city on the previous day. The ceremony was performed by Rev. Percy Warren Caswell, the single ring service being used. They left after the wedding on a wedding trip, their destination being a secret. Upon their return they will reside in this city, the groom being a well to do farmer.

### BUSY EVENING FOR CENTRAL LABOR UNION

Appoint Committee to Take Up Health Matters; Dr. Dixon and Other Speakers Heard.

There was a very active gathering at Labor Hall on Thursday evening in answer to a call by the Central Labor Union of this city. The Central body during the business session, appointed a legislative committee composed of A. B. Hurdlett, W. H. Noyes, M. H. Clark, Geo. A. Whittemore and H. S. Weston to take up the matter of legally providing pensions for indigent teachers with the City Council, School Committee and the Constitutional Convention. This committee will also cooperate with the Chamber of Commerce and

Board of Health in the examination of sanitary conditions of the various dairies of the community. Dr. James H. Dixon of the Board of Health gave a half hour to a subject on health matters and touched principally on the need of proper milk inspection, municipal slaughter house, a city incinerating plant and city water. He urged the people to watch out for cases where dead animals and refuse are dumped into the river and city ponds and report all cases to the proper authorities. In such cases the fine imposed would go to the parties causing arrest and prosecution. He was of the opinion that the lack of milk inspection and sanitary conditions of the various dairies was leading up to epidemics.

Mrs. May Du Tilly the Public Health Nurse addressed the meeting on the proper food for children and the good results of health examination for school children. Quite a delegation from Dover were present and the matter of a fitting stipend for the Hon. Andrew K. Brown was advanced in able addresses by Herbert McCabe, president of the Dover Loomfixers Union and Miss Annie U. Daley, president of Dover Weavers Union. J. W. Brown, an organizer representing the Miners Union was among the list of speakers and spoke of the strike situation among the men employed in the mines throughout the country. He will address the Metal Trades Council tonight.

### FIND STOLEN AUTOMOBILE IN THE MOUNTAINS

Taken in This City Oct. 29 on Congress St.; No Trace of the Thieves.

H. B. Culver of Sherburne avenue, on Wednesday, Oct. 23, had his automobile stolen while it was left on Congress street. The loss was reported to the police, but no trace was obtained of the machine until late last week when Charles P. Hussey and a Mr. English, who had been on a gunning trip to Wentworth location, reported that they had seen an automobile that corresponded to the one stolen from Mr. Culver in a farmer's barn at that place. When questioned the farmer said it had been left there about a week previous by a man who had told him to keep it until his brother called for it. On hearing of the facts Mr. Culver went to Wentworth location and on Thursday returned with his machine. As the machine was worth \$1550 he can consider himself a very lucky man.

Lyman Griffin has returned from a few days' visit with relatives at Lake Wentworth.
